

Ryan W., Christina X., Saray F., Amitis E., and Parsa S.

Group 1

April 10, 2026 Meeting

Goal for Today's Meeting:

- Discuss what to do about the samples/different sections of the gastric body and if anything has to be redone or not
- Discuss the draft manuscript and potentially go over some possible revisions to be made
- Discuss the final formal figures (what to include vs. not include)

What We Did:

- Presented findings to class
- Function Analysis
 - Redid analysis after filtering for only gastric antrum -> no significance in anything
- Checked the previous UJEMI article on gastric cancer research
- Drafted most of the draft manuscript → including formal figures

What We Plan to Do:

- Finish the manuscript
- Redo the analysis for UJEMI depending on our discussion
