

Ryan W., Christina X., Saray F., Amitis E., and Parsa S.

Group 1

March 27, 2026 Meeting

Goal for Today's Meeting:

- Functional analysis
 - Discuss how to approach the discussion for connecting our findings to other studies
- Guidance/discuss on how to approach future studies
- Check over the presentation + find areas for improvement
- How to integrate stats into beta diversity graphs
- Go over each figure and make the final adjustments
 - Check table formatting for final manuscript

What We Did:

- Functional analysis
 - The discussion paragraph and literature search have been conducted
 -
- Beta Diversity
 - Re-did the code for the beta diversity graphs
- Core microbiome
 - Ran core microbiome comparison between sexes within each stage
 - Compiled plots from different stages into a single plot
- Indicator taxa
 - Corrected table
 - Literature search
 -
- Reformatted all plots

What We Plan to Do:

- Functional analysis
 - Rerun some of the functions that resulted in bizarre graphs (same gender, HC_IN female for example)'
- Finalize presentation
