

Ryan W., Christina X., Saray F., Amitis E., and Parsa S.

Group 1

March 20, 2026 Meeting

Goal for Today's Meeting:

- Discuss what to include in functional analysis (scope of what we should cover in the presentation versus manuscript)
- Present our findings to the entire group so everybody is on the same page
- Discuss the current presentation
 - Check if formatting is correct (amount of text, font size, image size)

What We Did:

- Worked on functional analysis
 - Found relevant literature for each enzyme and connected it to cancer
- Drafted new manuscript sections that talk more about IN (Intraepithelial Neoplasia)
 - Worked and rewrote parts of manuscript introduction
- Worked on the presentation
 - Created an outline of the overall presentation structure

What We Plan to Do:

- Continue working/refining our manuscript, presentation and script
 - Improve our figures to be publication-ready
- Incorporate feedback from the research proposal and group discussion
- Change presentation or current analysis based on feedback after each person presents their findings
