

Ryan W., Christina X., Saray F., Amitis E., and Parsa S.

Group 1

March 6, 2026 Meeting

*** Apologies for the late hand-in, we are all busy with the MICB 325 midterm ***

Goal for Today's Meeting:

- Go over and discuss the proposal draft

What We Did:

- Functional analysis
 - Finished heatmap + PCA plot (discuss the results and their significance)
 - Fixed code where rarefaction was accidentally conducted before analysis -> did not result in significant changes in results
- Drafting proposal
 - Tried to come up with a fourth aim by doing core microbiome → very minimal result
 - Scripts available on GitHub
- Alpha diversity question: should I also include Faith's phylogenetic diversity?

What We Plan to Do:

- Finalize the proposal and get it ready for submission
 - Each person will check over the writing to ensure text is cohesive, grammatically correct and concise

Timeline + Task Assignment:

- Submit proposal! :)
- Start the manuscript figures (Assignment 7) :(
